To the Hiring Manager,

I am writing to express my keen interest in the Web Developer position at CN Solutions. With the completion of my Bachelor's of Engineering degree in Computer Science from the University of Mumbai, where I achieved a CGPI of 8.82, I am eager to bring my skills and passion for web development to your esteemed organization.

Throughout my academic journey and various courses, I have had the privilege of gaining hands-on experience by working on several projects, which has equipped me with a solid foundation in web development. I have honed my proficiency in HTML, CSS, and JavaScript, as well as frontend frameworks, particularly React.js and Bootstrap. Additionally, I possess a comprehensive understanding of backend technologies such as Node.js and Express.js, coupled with a firm grasp of database management using MongoDB and MySQL. My strong interest in web development is what motivates me to apply for this role at CN Solutions.

In addition to my academic background, I bring 5 months of experience in SQL support and one month of internship experience in web development, further enhancing my skills and knowledge in these areas.

I am eager to discuss how my skills and experiences align with the requirements of the web developer position at CN Solutions during an interview.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the requirements of the Web Developer. Please feel free to contact me at your earliest convenience. Thank you for your time and consideration.

Sincerely,

Mansi Kamble

MANSI KAMBLE

To leverage my skills in web development, including proficiency in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL, to contribute to the success of the company. I am passionate about delivering high-quality web solutions and eager to grow in a dynamic team environment.

Oct 2023 - Present

Harjai Computers Pvt Ltd

- Ensured SQL databases ran smoothly, optimized queries, resolved issues promptly, and ensured data integrity.
- Collaborated with diverse teams for synergy and knowledge exchange.
- Technologies used: SQL, Oracle

WEB DEVELOPMENT INTERN

Sep 2023 - Oct 2023

Prodigy InfoTech

- Developed responsive and user-friendly websites using HTML, CSS, and JavaScript.
- Expanded my knowledge of web development by learning about emerging technologies and best practices.
- Technologies used: HTML, CSS, JS, React.js, Bootstrap

PROJECTS

USER-DATA-MANAGEMENT-APP

[CODE](#)

[WEBSITE](#)

- This web application allows you to manage user data efficiently. User can create, access, edit, and delete user records effortlessly.
- The app uses Firebase Realtime Database as its data storage solution, ensuring real-time updates and reliability.
- Tech Stack: React.js and Firebase

SHOPRISE

[CODE](#)

- A full-stack e-commerce website where users can buy new products, add them to the cart, search for products by their categories, and place orders.
- The admin can perform CRUD (Create, Read, Update, Delete) operations on products and categories, as well as edit the order status.
- Protected routes are added for user as well as admin and strict linting standards are followed.
- Tech Stack: React.js, Node.js, Express.js and MySQL

SOCIAL-MEDIA-APP

[CODE](#)

- Backend of a social media web application where CRUD operations are performed on users, posts, and comments.
- Only authenticated administrators can perform these CRUD operations. Registration and login functionality are crucial, and linting standards are followed
- Tech Stack: Node.js, Express.js and MongoDB

TODOLIST

[CODE](#)

[WEBSITE](#)

- A simple full-stack to-do application for users to add new tasks, review their tasks, update existing tasks, and delete them.
- Users should first log in or register to make any changes
- Tech Stack: EJS, Node.js and Express.js

PORTFOLIO

[CODE](#)

[WEBSITE](#)

- A website which showcases skills, projects, educational qualification, work experience and many more
- Tech Stack: React.js, Styled-components and Material-UI

SKILLS

• FRONT-END :

HTML, CSS, JS, React.js, Bootstrap

• BACK-END :

Node.js, Express.js

• DATABASES :

MongoDB, MySQL, Firebase

• LANGUAGES :

C, Python

• TOOLS :

Eslint, Git, Github

CERTIFICATIONS

- MERN STACK DEVELOPMENT
Raw Engineering Academy

- PYTHON

Guvi

- DEVELOPING BACK-END APPS WITH NODE.JS AND EXPRESS
Coursera

- INTRODUCTION TO WEB DEVELOPMENT WITH HTML, CSS AND JS
Coursera

- DEVELOPING FRONT-END APPS WITH REACT
Coursera

ACHIEVEMENT

• BEST RESEARCH PAPER

Led a team of 3 and secured 3rd prize at the NCRENB conference for the paper titled "A Review on PCOS Prediction using Deep Learning."
